Elektron dars taqdimoti

Mavzu: Corel Draw ning uskunalar panelidan foydalanish.

Tuzuvchi: Tadjibayeva M.X.

Reja:

- 1.Corel Draw dasturi imkoniyatlari
- 2.Ayrim uskunalarga izoh
3. Tayyor shakllardan foydalanish.

TIIAME

Corel Draw dasturi

CorelDraw dasturi bilan ishlash jarayonida ob`ektlar ustida murakkab amallarni bajarish imkoniyati mavjud. Bu dasturda nafaqat shakllar yaratish, balki ularga rang berish, belgilangan konturning xoxlagan tugunini o`rnini o`zgartirish imkoniga ega vertikal uskunalar paneli mavjud.

CorelDRAW
GRAPHICS SUITE 2019

Uskunalar panelida joylashgan tugmalarga izoh

TIIAME

– Ukazatel` (ko`rsatkich) – ob`ektni belgilash uchun tanlanadi.

Ularning o`lchamlarini o`zgartirish, siljitim, aylantirish, qayta rang berish, tugun nuqtalar holatini o`zgartirish, murakkab ob`ektlar bilan amallar bajarish imkoniyatiga ega. Uning xossalari paneli tanlangan shaklga ko`ra mavjud bo`ladi.

Quyida tanishtiriladigan uskunalar orqali barcha xil turdag'i chiziqlar chizish mumkin.

Egri chiziqlar chizish.

TIIAME

– Elektron qalam. Egri chiziq yoki to`g`ri chiziqlarni ketma – ket chizish. Buyruq tanlanadi. Kursorni ishchi sohaning kerakli qismiga joylashtirib, “sichqonchaning” chap tugmasini bir marta bosilgan holda chizilsa egri chiziq chizadi. Agarda “sichqonchaning” chap tugmasini bir marta bosib, quyib yuborilib sohaning boshqa qismiga yana bir marta bosilsa, u holda to`g`ri chiziq chizadi.

Egri chiziqlar chizish.

TIIAME

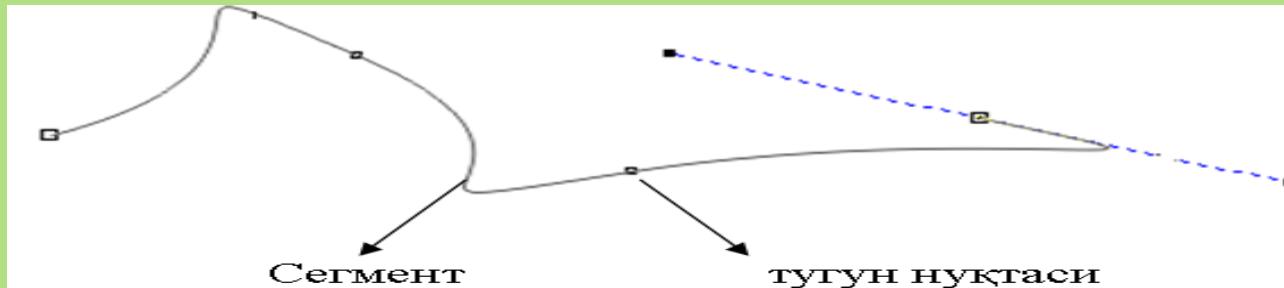

Yopiq kontur yaratish zaruriyati tug`ilganda, ochiq soha belgilanib,
xossalalar panelidan  – buyrug`i tanlanadi. Natijada soha yopiq
sohaga aylanadi.

Egri chiziqlar chizish.

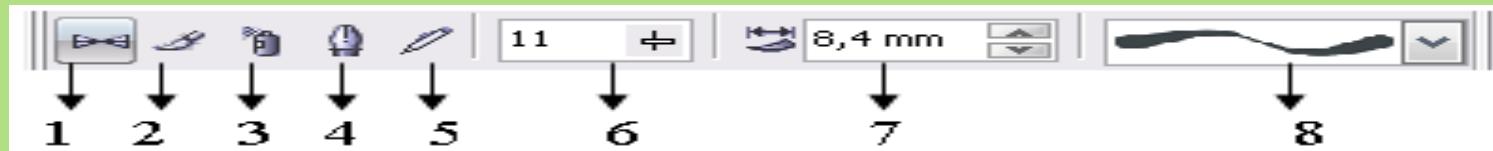

- (Bez`e) Egri chiziq segmentini bir uzlusiz harakatda chizish

Egri chiziqlar chizish.

– Badiiy – grafika elementlarini o`rnatish (pero, to`ldirish, qolip, pul`vizerator va h.k...). Ushbu uskunaning xossalar paneli ko`p funksiyalarga murojaat qilish imkonini beradi.

- 1-Tesma;
- 2-Surkatish;
- 3-Purkagich;
- 4-Kalligrafiya;

- 5-Avtoruchka;
- 6-yumshoqlik darajasi;
- 7-qalinlik darajasi;
- 8-namuna;

Egri chiziqlar chizish.

- (Pero) Egri chiziq segmentini bir uzliksiz harakatda chizish.

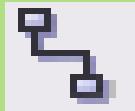

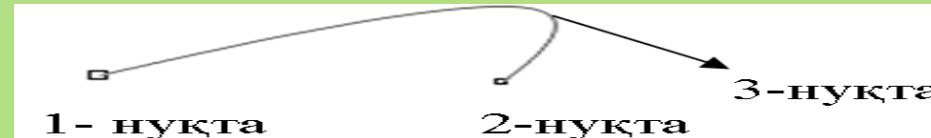

- Bir necha segmentdan iborat egri chiziqlar chizish.

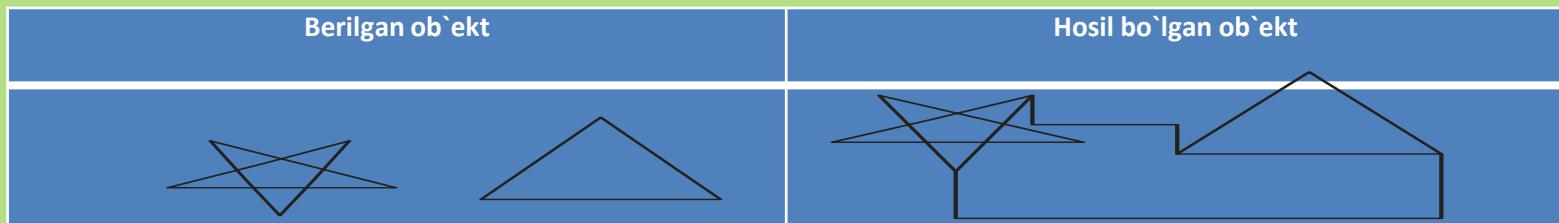

Egri chiziqlar chizish.

– Egri chiziqni uch nuqta (boshi, o'rtasi, oxiri) bo'yicha chizish

– Ikki ob`ekt tugunlarini ulovchi chiziq

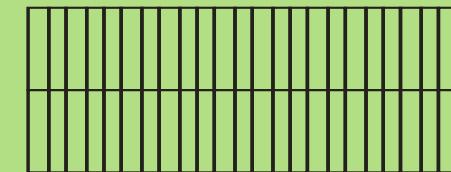

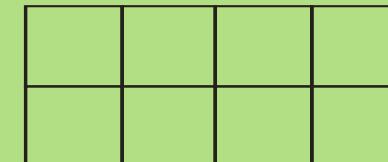

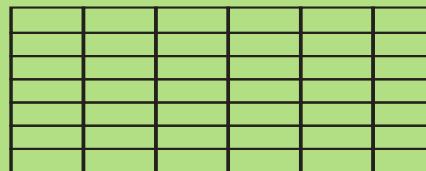

Shakllar chizish

– Ko`pburchaklar, spirallar chizish.

– Diagramma setkasini o`rnatish.

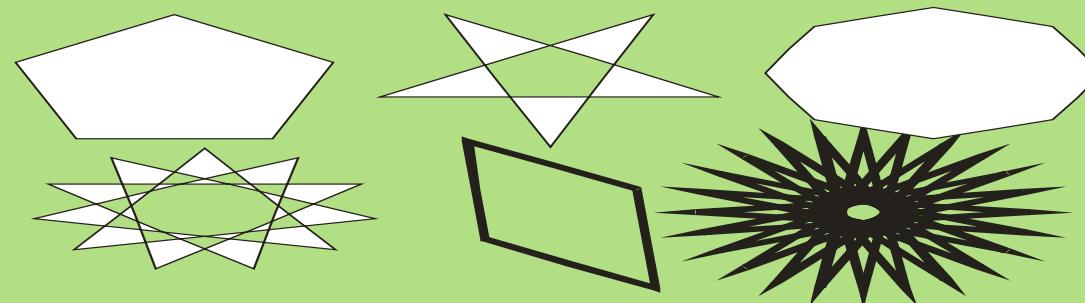

Ko`pburchaklar chizish

TIIAME

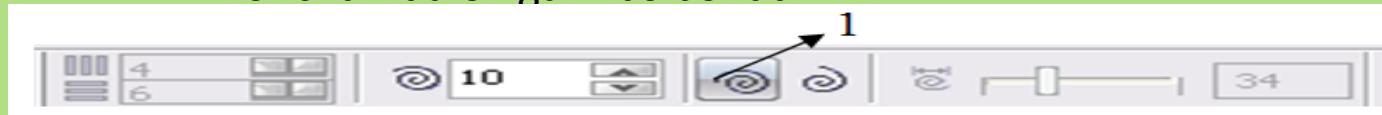

Bu uskuna yordamida ko`pburchak shaklidagi figuralar chiziladi. Muntazam ko`pburchaklar chizish uchun “ctrl” tugmasi bilan birligida chizish amalga oshirish lozim. Uning xossalari paneli juda ko`p parametrli bo`lib, qavariq, botiq ko`pburchaklar chizish, ko`pburchak tomonlari sonini aniqlash va bir qancha murakkab amallarni bajarish mumkin.

Spiral chizishni 2 turi

1 – turida spiralning o`ramlari oralig`i masofasi bir xil o`lchamda o`zgarmas bo`ladi.

2-turida spiralning o`ramlari oralig`i masofasi ichkari qismidan tashqi qismiga tomon kengayib boradi.

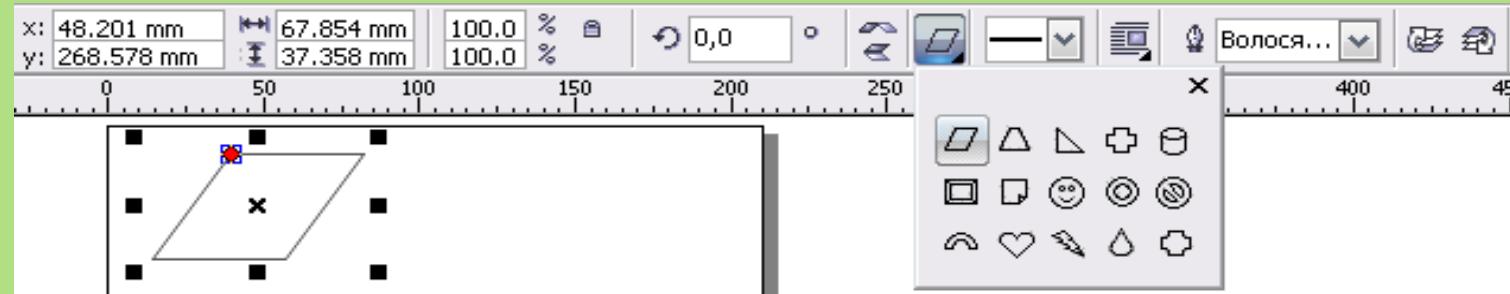

Tayyor shakllardan foydalanish.

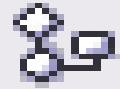

TILAME

Тайyor shakllardan foydalanib chizish.

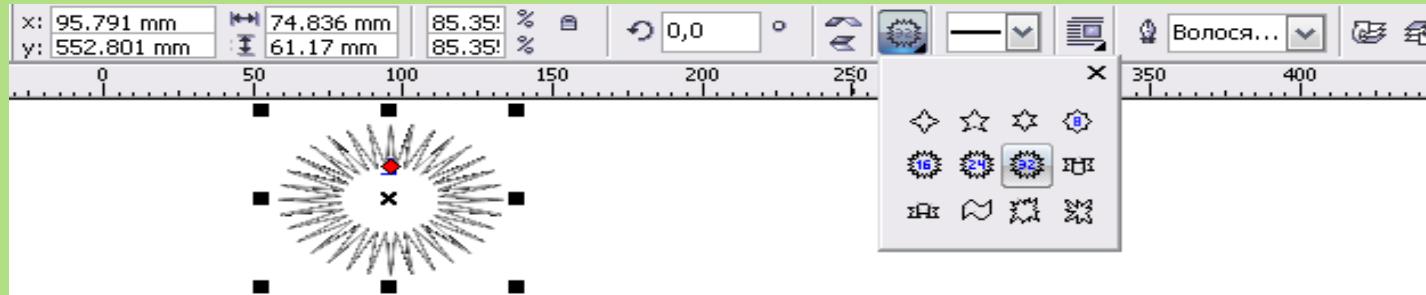

Tayyor shakllardan foydalanish.

Turli figuralar chizish.

Yulduz va ko`pburchaklar chizish

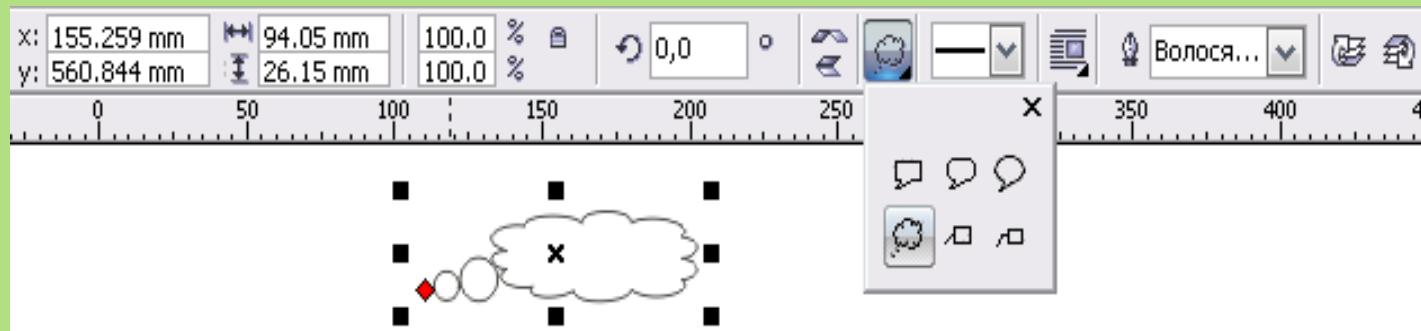

Tayyor shakllardan foydalanish.

ТИЛАМЕ

Izoh uchun shakllar chizish
