How can I compare two photos?

In 1.5 minutes be ready to compare and contrast the two photographs:

1. Give a brief description of the **two photos** (action, location)
2. Say what the **pictures** have in common.
3. Say what in what way the **pictures** are different.
4. Say which of the activities presented in the **pictures** you'd prefer.
5. Explain why.

ROLE PLAY

Role-playing is the changing of one's behaviour to assume a role, either unconsciously to fill a social role, or consciously to act out an adopted role. While the Oxford English Dictionary offers a definition of role-playing as "the changing of one's behaviour to fulfill a social role", in the field of psychology, the term is used more loosely in four senses:

- To refer to the playing of roles generally such as in a theatre, or educational setting;
- To refer to taking a role of a character or person and acting it out with a partner taking someone else's role, often involving different genres of practice;
- To refer to a wide range of games including role-playing video game (RPG), play-by-mail games and more;
- To refer specifically to role-playing games.
